GEORGIAN COLLEGE (2017 - 2024)

Interactive Web Design and Development

Focused on practical application of web technologies, databases, and full-stack development

PROFESSIONAL SUMMARY

Versatile and dependable Senior Software Developer with 9+ years of experience delivering scalable backend systems, APIs, and cloud-integrated applications. Proven expertise in ASP.NET, C#, SQL Server, and SSIS, with a growing leadership presence in AI and AWS modernization initiatives. Known for being a thoughtful problem solver,

WORK EXPERIENCE

Bill Gosling Outsourcing

Senior Software Developer | Remote / Barrie, ON

OCT 2022 – PRESENT

- Lead development of scalable web applications, APIs, and integrations across .NET, SQL Server, and IIS
- Drive high-priority reporting and data initiatives as a technical SME and business-facing partner
- Act as a cross-team technical advisor, supporting troubleshooting, architecture, and requirements planning
- Design cloud infrastructure for AWS-based AI projects, contributing to automation and metadata-driven workflows
- Mentor global team members and lead delivery of high-impact internal development projects
- Manage SharePoint systems and RPA workflows to automate internal operations

Intermediate Software Developer | Hybrid / Newmarket, ON

OCT 2019 - SEPT 2022

- Developed full-stack applications and reporting dashboards using ASP.NET, JavaScript, SQL, and SSIS
- Created and deployed API integrations for dialers, vendors, and internal tools
- Built client-facing portals and internal tools to improve operational visibility and productivity
- Maintained and enhanced SharePoint systems, including custom workflows and document libraries
- Designed SSIS workflows for data ingestion, transformation, and error handling
- Collaborated with QA and operations teams to align technical delivery with business requirements

ORIE HULAN
SENIOR SOFTWARE DEVELOPER

TECHNICAL PROJECTS

AI-Powered Agent Intelligence Platform (2025)
Contributed to the development of a secure, cloud-based AI platform leveraging AWS services to analyze interaction data and surface insights on business effectiveness, key performance indicators, and operational trends.

DB2 Process Migration (2023-2025)
Migrated legacy DB2 systems into a modern SQL Server data warehouse by rebuilding critical processes and workflows to improve long-term scalability, reliability, and maintainability.

Company Web Platforms (2020 - 2023)
Designed and developed company web platforms from the ground up using HTML, CSS, JavaScript, PHP, and HubSpot, delivering maintainable, client-facing solutions aligned with business requirements.

PROFESSIONAL SKILLS

- Problem Solver
- Self-Directed & Accountable
- Team Leadership
- Cross-Team Collaboration
- Strong Communicator
- Analytical Thinking
- Prioritization & Time Management
- Adaptable to Change
